

GRAFFITI SHIELD

This product is a superior water-based, non-sacrificial anti-graffiti coating for all masonry, concrete, timber & other porous substrates and coloured concrete. It is invisible upon application, environmentally friendly, non-toxic, non-flammable and UV light resistant. It provides a tough surface barrier against the effects of spray paint and permanent markers. There are no discoloration or demarcation lines when **Sure Seal® Graffiti Shield** is applied. Once applied and allowed to cure, **Sure Seal® Graffiti Shield** leaves a durable, protective and invisible finish delivering years of protection.

BENEFITS & CHARACTERISTICS:

- Non-Toxic, Non-Hazardous
- Water-based, Single Pack
- Invisible Protection
- Non-Sacrificial Coating
- Easy to Apply
- Advanced Technology Formulation

Mixing:

Product is ready to use. Shake before using.
Do not dilute.

Preparing the Surface:

All surfaces must be clean and free from dust, dirt, curing compounds and other soiling.

Australia Pty Ltd.**

ABN 89 677 880 358

Directions for Application:

Begin application at the highest point of the surface to be treated. Completely wet the surface by applying **Sure Seal® Graffiti Shield** with a lambswool applicator, paint brush, roller, pump spray or airless sprayer at 60 PSI or less. When treating rough surfaces a pump or airless sprayer is recommended. Apply one coat evenly, thoroughly saturating the surface being treated. Allow at least two hours drying time, then apply a second coat. Product will perform when dry, but for optimum protection, surface should be allowed 24 hours curing time.

Maintenance:

There is no need to use harsh cleaning agents such as abrasive powders, ammonia, acids, bleach, solvents or severe scrubbing pads. To remove graffiti from large treated areas, use of a power washer up to 1000-1500 PSI (depending upon the surface) should be used. For small areas, inside areas, or areas where the use of a power washer is not practical, clean with **Sure Seal® Graffiti Remover** and rinse well with water. Allow surfaces to dry.

Coverage:

One litre will cover approximately 10-12 sq. metres depending upon the porosity of the surface to be treated and method of application. Greater coverage will be achieved on the second coat.

Quantities: Supplied in 10 litre or 20 litre drums.

First Aid:

Eye Contact: If in eyes, immediately flush eyes with plenty of water for at least 15 minutes. Seek medical attention.

Skin: Prevent prolonged contact with skin. Wash area with soap and water.

Disclaimer:

The information given in this data sheet is based on many years of experience and is correct to the best of our knowledge. As the storage, handling and application of this material is beyond our control, we can only be responsible for the quality of our product at the time of dispatch. We reserve the right to alter certain product parameters within the spectrum of properties in order to keep abreast of technical advances. It is the responsibility of the end user to determine the suitability of this material for any particular application

Ingestion: If swallowed DO NOT induce vomiting. Wash out mouth with water and give plenty of water to drink. Seek medical attention. Never give anything by mouth to an unconscious person.

Inhaled: No first aid measures normally required. If vapours or mists inhaled and irritation develops, remove to fresh air and observe until recovered. If irritation becomes painful or persist more than about 30 minutes, seek medical advice. If symptoms persist seek medical attention or contact Poisons Information Centre on 131 126.

Protective Clothing: Take all necessary precautions when handling product. Wear appropriate chemical resistant protective clothing to prevent skin contact.

Handling and Storage: Keep tightly closed and store in original container. Once contents are opened, excellent storage stability under normal conditions. Maintain a high level of personal hygiene when using this product. Wash your hands before eating, drinking, smoking or using the toilet.

Transport Information: Proper shipping name: None Allocated Not Regulated (This product has no UN classification. Not a Scheduled Poison. Not classified as a Dangerous Good according to the Australian Code for the Transport of Dangerous Goods by Road and Rail (6th Edition).) See Material Safety Data Sheet for complete warnings and safe handling instructions.

KEEP OUT OF REACH OF CHILDREN

Note: Consult the Safety Data Sheet for further safety details. It is recommended to test the product on a small inconspicuous area to determine its efficacy or unexpected results.
